

SPRINT 1 PLAN

Project Name: Boba Tracker

Team Name: Boba Peeps

GOALS:

For this sprint, our team goals are to create an entry form where users can track their drink information and display this information in a chart.

TASKS

User story 1: As a user, I want to be able to input how much I spend on each drink and view it. (20 Story Points)

- Create an entry form for entering drink name, drink cost, and optionally the sugar amount in the drink.
 - Time estimate:
- Set up database for storing user data
 - Time estimate:
- Total for user story 1:

User story 2: As a user, I want to view my information in a chart. (8 Story Points)

- Task
 - Time estimate:
- Total for user story 2:

User story 3: As a developer, I want an attractive, well organized layout that will motivate users to use the app. (5 Story Points)
